

## 21-23 September 2018 HEMP LIME WORKSHOP WEEKEND

Peter Cowman workshops some years back got our straw clay house built. Since then we have clad the gables. Now the time is right to plaster the elephant-skin like walls of straw clay to safeguard and beautify the structure with tubs of hemp lime come new from Monaghan. SEE we have done two thirds of the north wall.

**€39** for two nights + food + "tuition" - small catch and why/ how we keep the price low. We need you to plaster four square metres-ish across the two days; otherwise no dessert. Declare your interest here [info@gyreum.com](mailto:info@gyreum.com).
